Activity Report

- Experimental learning is an important aspect of understanding the concepts of Science through experimentation and provide a real understanding of the theoretical phenomenon. Department of Physical Sciences (Under the aegis of IQAC) organized Workshop on Experimental Learning on 14th February, 2023.
- The aim of this Activity is to facilitate the independent verification of scientific observations.
- Dr. Mithu Maiti Jana, Associate Professor Chemistry, was the expert for the workshop.
- Dr. Mithu Maiti Jana explain about the basic principle, standard operating procedure and guidelines, precautions about various instruments such as Deep Freez Incubator, Digital Water bath, Ultra sonicator, Vertical gel electrophoresis instrument and UV-Vis Spectrophotometer. Working procedures of the experiments related to these instruments have also been elaborated.
- Students from MSc Hons Physics, MSc Hons Chemistry, MSc Hons Medical microbiology and MSc Zoology and PhD Research scholars have participated in this workshop to gain more understanding about the experimental Techniques.
- Prof (Dr) Nizamul Haque Ansari has also shared his expertise about the instruments and their procedure of working.
