The summarized report of the observations and the suggestions during the academic audit of the departments by the experts is given below:

1. Teaching-Learning and Evaluation

1. Ratio of Mentor-Mentees is good but in some departments only one faculty is allocated to the whole class of 1st semester for mentorship. Each faculty teaching 1st year students should be the mentor of that class.
2. ICT resources for teaching learning process are used in all the departments and should be more strengthened.
3. Departments should organize more Experts Lectures/ workshops/seminars.
4. In the Department of Law, Departmental Library needs to be upgraded.
5. In the Department of Law, Faculty members having International experience, judicial officers and Senior advocates should be invited for special Lectures.
6. Departments should focus on Faculty exchange programmes.
7. Adjunct faculty and visiting professors should be engaged in the departments.

2. Curricular Aspects

1. In the Department of Computer Science Applications, inter disciplinary courses should be included in the curriculum.
2. In the Department of law, few number of Inter disciplinary courses are offered and should include more such courses.
3. In most of the programmes Choice Based Credit System is implemented.
4. In the Department of Education, more elective courses should be added in the curriculum of M.Ed
5. Few departments are not offering the cross cutting courses related to gender equity .
6. Feedback is taken from the various stakeholders in all departments and it is recommended that curriculum should be revised as per the feedback from the stake holders.

3. Research, Innovations and Extension

1. It has been observed by the experts that there should be more focus on MoUs and Collaborations at National/International levels in all the departments.
2. Faculty should be encouraged to publish more research papers in quality journals.
3. Departments should make the efforts to promote the consultancy.
4. Interdisciplinary research should be encouraged in the university.
5. Departments have organized National and International conferences and should motivate the faculty to organize and participate in more conferences.
6. More efforts are required to apply for the research projects by the faculty in all departments.
7. Specialized central research facility with sophisticated instruments should be established in the university.
8. Legal awareness camps, tree plantations, Physiotherapy camps and other extension activities are well organized regularly by the departments.
9. There is a need to increase the thrust areas in the some departments of Sciences.

4. Student Support and Progression

1. Department should take initiative to encourage and guide students for qualifying the various competitive exams.
2. Placement of the students should be improved and more efforts are required in strengthen the placement cell .
3. In most of the departments, Student- Teacher ratio is good.
4. Participation of students in the Inter-University activities /NSS/NCC/Sports should be encouraged.
5. In some programmes ,demand ratio need to be improved. Enrollment of students in master degree progammee and Ph.D programme is very less and more efforts are required in this regard.

Dr. Harpreet Kaur
Director IQAC, SBBSU

Dr. Dharmjit Singh Parmar
Vice-Chancellor, SBBSU
