REPORT ON “Tree Plantation”

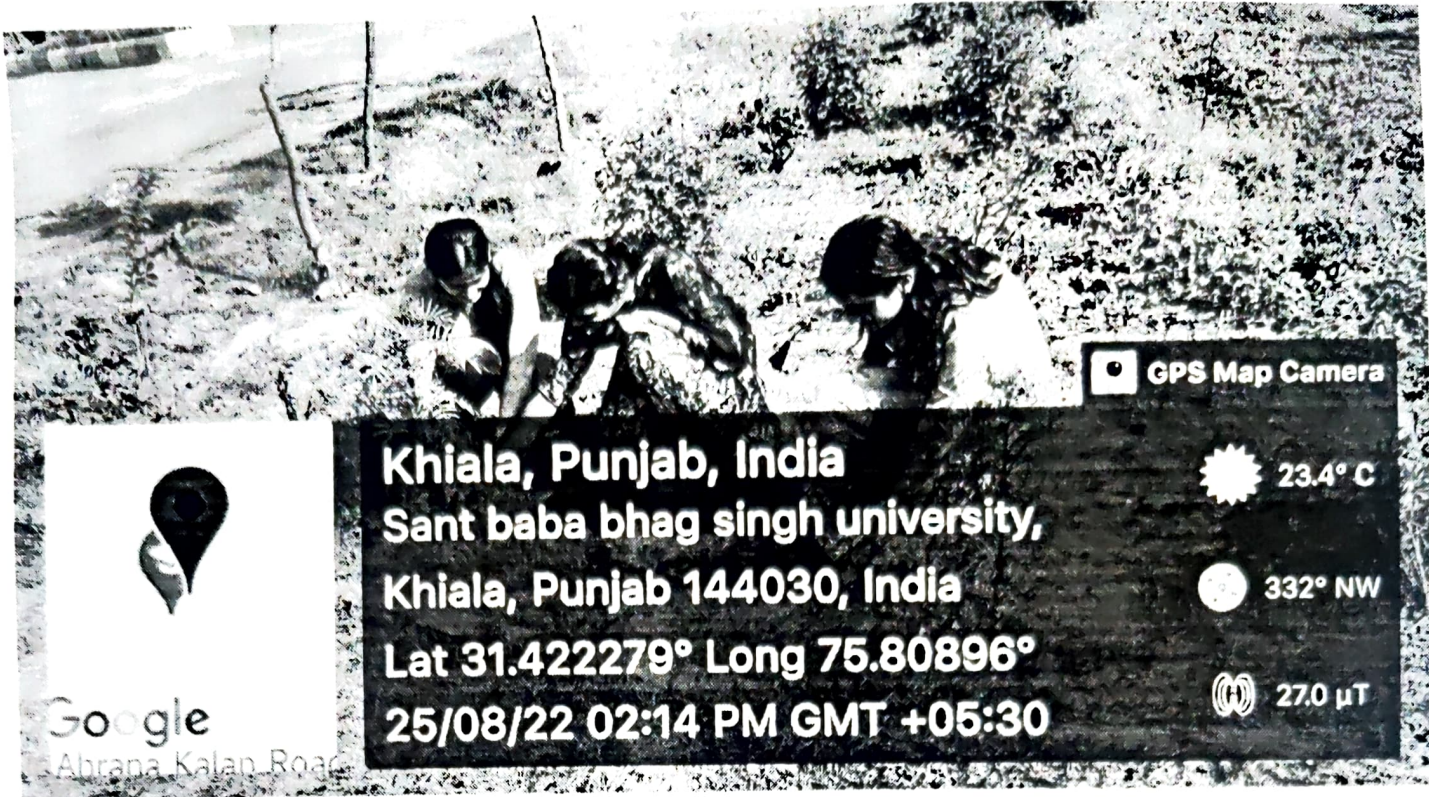

Department of Computer Application

On 25 AUG 2022

Event Venue: Near Block no.7

With the heavenly blessings of Revered Sant Baba Dlawar Singh Ji (Brahm Ji) and with the benign endorsement of our Chancellor Sant Baba Sarwan Singh ji, and under the valuable guidance of respected Vice Chancellor of SBBSU Prof. (Dr.) Dharmjit Singh Parmar, NSS Unit (CSA) of SBBSU has started various initiatives within the campus to promote ‘Tree plantation’. Tree planting is recognized as one of the most engaging, environmentally-friendly activities that people can participate in to help the planet when done properly. Trees provide numerous long-term and short-term benefits. They not only look nice, but they also remove and store carbon from the atmosphere, slow heavy rain and thus reduce the risk of flooding, improve air quality, and reduce the urban heat island effect by reflecting sunlight and providing shade. Tree plantation is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things. Trees provide clean air for living beings to breathe and generate energy. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas. One such activity of ‘Tree plantation’ was successful organized in Block 7 by NSS Volunteers on 25/08/2022. Head of Department Dr. Nirmal kaur and Mr.Vishal (Programme Incharge) and all faculty of CSA department were present to boost and appreciate the volunteers to keep on participating in such activities. Refreshment was also given to the volunteers.
