

To Whom It May Concern,

This is to certify that **Mr. Govind Parsad** successfully completed his Internship as a **Cloud Computing & DevOps Intern** (ID: **CR/6MINT26/088**) with us from **January 2026 to July 2026**.

During his internship, he worked on various aspects of **Cloud Computing and DevOps**, including cloud infrastructure management, Linux server administration, virtual machine provisioning, cloud networking, Docker containerization, CI/CD pipeline implementation, Git version control, deployment automation, infrastructure management, cloud security best practices, monitoring, logging, and performance optimization. The project that he worked on is:

GigMatch (Real-Time Freelance Bidding and Employment Platform)

A real-time freelance marketplace designed to connect clients with skilled professionals for both remote and on-site work opportunities. The platform enables users to post jobs, discover relevant opportunities, and submit bids in real time. It provides a scalable cloud-based environment for managing freelance projects, facilitating secure collaboration, and streamlining the hiring process while creating flexible employment opportunities.

Key Responsibilities:

- Performed daily Cloud Computing and DevOps lab exercises.
- Worked on Linux server administration and cloud infrastructure management.
- Configured and managed virtual machines and cloud networking services.
- Implemented Docker-based containerization for application deployment.
- Assisted in setting up CI/CD pipelines for automated build, testing, and deployment.
- Worked with Git and GitHub for version control and collaborative development.

Throughout the internship, **Govind** demonstrated strong analytical skills, technical proficiency, problem-solving abilities, and a keen interest in **Cloud Computing and DevOps** technologies. His dedication, professionalism, and commitment to learning were highly appreciated by the organization.

We wish him every success in all his future endeavors.

Sensation Software Solutions Pvt. Ltd.
An IT Company Since 2013

To Whom It May Concern,

This is to certify that **Mr. Saurabh** successfully completed his Internship as a **Cloud Computing & DevOps Intern** (ID: **CR/6MINT26/089**) with us from **January 2026 to July 2026**.

During his internship, he worked on various aspects of **Cloud Computing and DevOps**, including cloud infrastructure management, Linux server administration, virtual machine provisioning, cloud networking, Docker containerization, CI/CD pipeline implementation, Git version control, deployment automation, infrastructure management, cloud security best practices, monitoring, logging, and performance optimization. The project that he worked on is:

VoteVerify (Real-Time Vote Verification and Validation System)

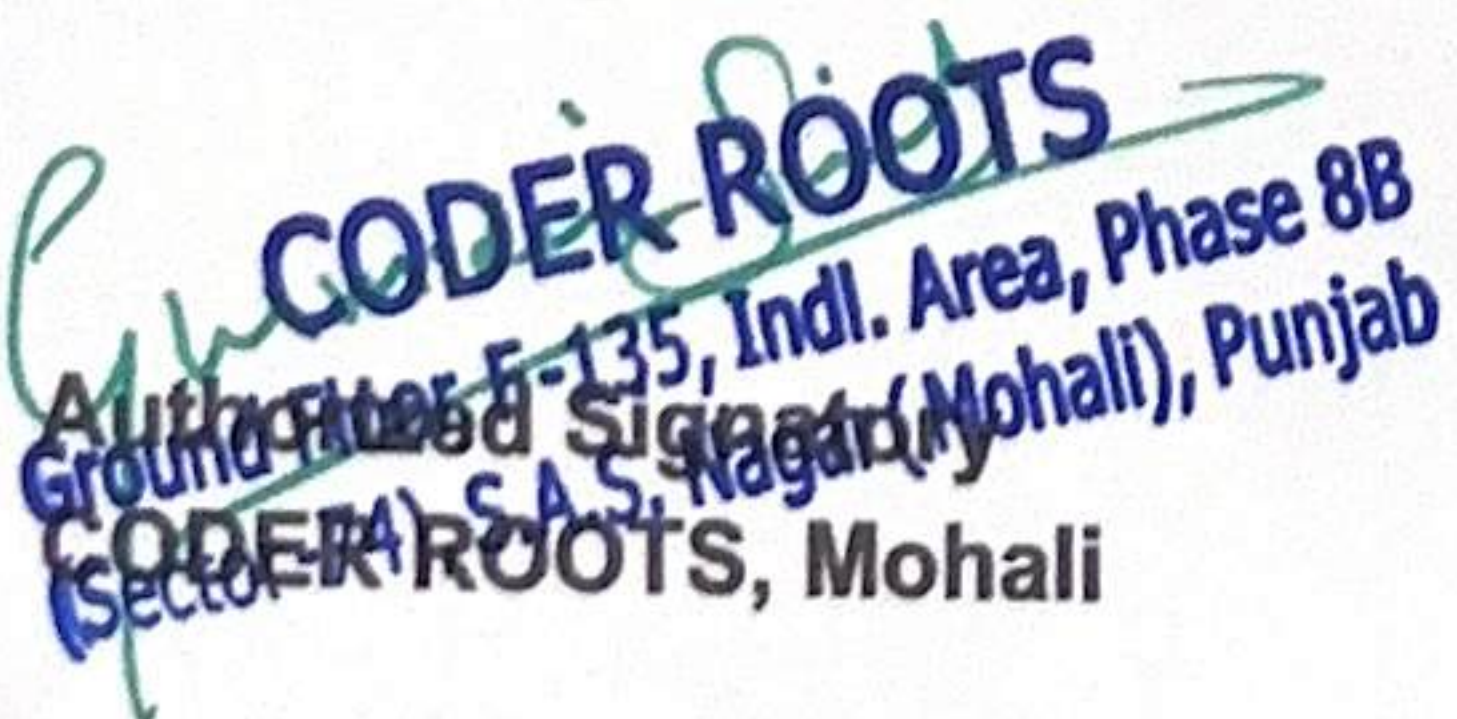

A real-time vote verification system designed to ensure the accuracy, integrity, and uniqueness of voting data. The system processed and validated votes in real time, detected duplicate voting attempts, and maintained secure voting records. It implemented verification and validation mechanisms to prevent unauthorized or invalid voting, ensuring that each vote was accurately recorded and reliably managed.

Key Responsibilities:

- Performed daily Cloud Computing and DevOps lab exercises.
- Worked on Linux server administration and cloud infrastructure management.
- Configured and managed virtual machines and cloud networking services.
- Implemented Docker-based containerization for application deployment.
- Assisted in setting up CI/CD pipelines for automated build, testing, and deployment.
- Worked with Git and GitHub for version control and collaborative development.
- Contributed to system testing, data validation, and implementation of security mechanisms to ensure vote integrity.

Throughout the internship, **Saurabh** demonstrated strong analytical skills, technical proficiency, problem-solving abilities, and a keen interest in **Cloud Computing and DevOps** technologies. His dedication, professionalism, and commitment to learning were highly appreciated by the organization.

We wish him every success in all his future endeavors.

To Whom It May Concern,

This is to certify that **Mr. Sahil Bhatia** successfully completed his Internship as a **Cybersecurity & Cloud Intern** (ID: CR/6MINT26/065) with us from **January 2026 to July 2026**.

During his internship, he worked on various aspects of Cybersecurity and Cloud Computing, including Android network traffic analysis, ethical hacking fundamentals, network security concepts, vulnerability assessment, firewall implementation, security monitoring, cloud infrastructure management, cloud security best practices, virtual machine deployment, and cloud-based networking. The projects that he worked on are:

ANTAAF (Android Network Traffic Analyzer and Active Firewall)

A cybersecurity-based project designed to analyze Android network traffic, monitor data packets, detect suspicious activities, and implement active firewall rules to enhance system security and protection.

WireNet

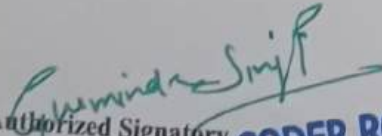

A multi-platform cybersecurity project focused on securing multiple operating systems including Windows, Android, Linux, and server environments. It involved implementing security layers, monitoring system activities, and strengthening protection against unauthorized access and potential cyber threats across different platforms.

Key Responsibilities:

- Performed daily cybersecurity lab exercises and explored security concepts.
- Worked on network traffic analysis and firewall-based security mechanisms.
- Assisted in cybersecurity research and practical implementations.
- Performed deployment of related project work of the company.
- Contributed to social media management for company pages.
- Actively participated in hackathons and technical events.

Throughout the internship, Mr. Bhatia demonstrated strong analytical skills, technical understanding, and a keen interest in Cybersecurity & Cloud related technologies. His performance and dedication were highly appreciated by the organization.

We wish him success in all his future endeavors.
