Date: 22.07.2024

**Subject:** Appreciation for Achieving the Second Rank in Virtual Labs Usage.

Dear Sir / Madam,

I am writing to extend my heartfelt congratulations to **Sant Baba Bhag Singh University, Jalandhar** for achieving the prestigious **Second Rank** in the Usage of Virtual Labs in the state of Punjab for the First Semester (January – June 2024).

Through initiatives like yours, we can envision a future where technology seamlessly integrates with education, fostering a culture of continuous learning and skill development. Your leadership and proactive engagement in Virtual Labs exemplify your Institution's commitment to academic excellence and innovation.

The dedication and enthusiasm exhibited by **Dr. Gurmanik Kaur**, the Institute Nodal Coordinator of Virtual Labs from Sant Baba Bhag Singh University, Jalandhar, in actively participating and contributing to Virtual Labs for the last **Eight Year**, have significantly enhanced the educational experience and practical learning opportunities for students and faculty members. Your consistent efforts in embracing digital technologies for education are setting a benchmark in the academic community.

On behalf of the Virtual Labs Team, Indian Institute of Technology Delhi (IIT Delhi), I sincerely appreciate your outstanding achievement and ongoing support in promoting Virtual Labs and once again congratulate **Sant Baba Bhag Singh University, Jalandhar** on this remarkable accomplishment. May your journey in educational innovation continue to inspire and benefit the entire community.

We look forward to continued collaboration and the advancement of educational standards through such pioneering efforts.

Thank You.

## RANSOMWARE

Ransomware is a malware designed to deny a user or organization access to files on their computer. By encrypting those files and demanding a ransom payment for the decryption key, cyberattackers place organizations in a position where paying the ransom is the easiest and cheapest way to regain access to their files.

## WORKING OF RANSOMWARE ATTACK

## UNFOLDING THE SOLUTION

As The Digital Threats Are Increasing Day By Day So To Protect a particular threat named ransomware We developed a solution which is mainly a console based solution and it uses various technologies like zero trust network access(ZTNA), Detection and response system, Link detection system which controlled by the admin. This solution works on the approach of preventing ransomware attacks on the connected / registered system inside the Security console. The Whole Solution is Based On Scripts And FrameWorks Of Python And JavaScript And Uses Other Various Methodologies To Detect And Prevent The Attack And Let The User/Admin SafeGuard Their DataBases To Prevent Any Loss Of Data.
