2. Swachh Bharat Abhiyan

Date: 02-09-2019

Sant Baba Bhag Singh University Organized Cleanliness Drive under SWACHH BHARAT ABHIYAN on the occasion of Gandhi Jayanti. The main purpose of this program was to create awareness among the students and villagers regarding benefits of cleanness. Under this program university students carried out prolific cleaning at nearby villages and within the campus.

The program was started with the blessing of Sant Baba Dlawar Singh Ji "Brahm Ji" (Chancellor). Hon'able Prof. (Dr.) Jatinder Singh Bal (Vice Chancellor) and Vice president of the management committee S. Kewal Singh Ji graced the occasion. Students carried out cleaning of nearby by villages namely **Khiala, Ahrana Kalan Road, Daroli Kalan and Manko**.

Apart from cleaning, students informed villagers about the importance of separating the degradable and non-degradable waste at source. Students also counseled villagers to minimize the single use plastic items. Tree sapling raised in university Nursery was planted in the villages for increasing the shaded area cover.

4. Two-Day Plantation and Plant Adoption Drive

Date: 03-03-2022 to 04-03-2022

Website Link: <https://www.sbbsuniversity.ac.in/events/201-event.php>

Environment Sustainability and Management (ESM) Cell organized a two-day Plantation and Plant Adoption Drive under the aegis of IQAC and IIC on 3rd and 4th March, 2022. The event was conducted as a part of Science Week (28th February- 4th March, 2022) celebrated by UIS. **Day 1:** 3rd March: The drive was carried out in SBBSU adopted **village Manko** on 3rd March 2022 in collaboration with **Subhash Rattan Bank Wale Agriculture Sewa Society, Hoshiarpur**. During this event different medicinal and ornamental plants were distributed by the ESM Cell, SBBSU. The saplings were planted mostly close to the school, Panchayat Ghar and near the house of those interested in adopting and nurturing the plants voluntarily. The motive of the event was to spread awareness among the public regarding planting more and more trees. The members of ESM cell explained and emphasized that plantation is need of the hour and everyone should show empathy towards the trees. The ESM cell recommended all the local communities to make tree plantation a ritual to mark celebrations like birthdays, anniversaries, and festivals. They also suggested that the person planting any sapling should take full responsibility towards the fostering of the plant. Audience have highly appreciated the efforts of students and team members of ESM cell for organizing this drive.

Day 2: 4th March: The Drive was continued in the SBBSU campus where the students' donated the saplings of their choice and planted them at varied location within the campus. Besides, planting the students adopted the planted saplings and trees with an aim to contribute in their nurturing. The students were motivated to adopt the plants already growing in or around the campus. More than 50 students participated in total with great enthusiasm. The efforts of students were appreciated by providing them Certificate of Appreciation.

[Handwritten signature]
Registrar
Sant Baba Bhag Singh University
Vill-Khiala, Jalandhar-144030

Highlights:

- The Electrical Engineering Department, UIET, Sant Baba Bhag Singh University (SBBSU), Jalandhar, organized an extension activity on the topic “Alternative Energy Sources” on 13th May, 2022, at village Takhni, Distt. Hoshiarpur.
- A total number of 12 students from the EE department participated in the extension activity.
- It has been explained to the participants that the two primary problems with conventional energy sources are that they are finite, which means they could run out, and that they release carbon dioxide, which is harmful to the environment. The push to switch from conventional to alternative energy sources has been gaining momentum in recent years, mostly because of these reasons. The carbon footprint of alternative energy sources is significantly lower than that of coal, natural gas, and other fossil fuels.
- The attendees were also introduced to alternative sources of energy like Solar energy, Wind energy, Hydro energy, Tidal energy, Geothermal energy, Biomass energy.
