## 1. Preamble

The Constitution of India provides equality, freedom, justice and dignity of all, including persons with disabilities (Divyanjan). According to the census 2012, the population of Divyanjan is 2.68% which is 2.21% of the total population. In the recent years, there have been vast and positive changes in the perception of the society towards persons with disabilities. Government have also realized that Divyanjan faced many difficulties to access the facilities despite the constitution have provides all the rights to Divyanjan. The Indian policy-makers address some of the concerns faced by differently-abled persons in India by framing Rights of Persons with Disabilities Act, 2016. The Act specifically refers to ease the access facilities to Divyanjan in public or private buildings, workplaces, commercial activities, public utilities, religious, cultural, leisure or recreational activities, medical or health services, law enforcement agencies, transport infrastructure, among others. The government launched “Accessible India” (Sugamya Bharat Abhiyan) campaign under the able leadership of Hon’ble Prime Minister Shri Narendra Modi ji with a motive to make convenient for Divyanjan to access the access of facilities in the administration buildings, parks, railway stations, workplaces, public utilities, religious institutions, medical and health services etc.

In Education Institutions and Workplaces disable persons have found difficult to access the facilities. The common problems faced by the disabled students and staff are to access the classroom, washrooms, library, playground, hostel, food court and mess. Therefore, our institute have built some infrastructure and facilities that can be helpful.

- Ramps/lifts for easy access to classrooms
- Divyangjan friendly washrooms.
- Signage including tactile path, lights, display boards and signposts.
- Assistive technology and facilities for Divyangjan accessible website, screen reading software.
- Provision for enquiry and information: Human assistance, reader, scribe

### 3.1 Ramp and Lift Facility.

The Ramps are built in each building so that persons with disability can easily enter inside the building. Each building has wheelchairs and reserved parking facilities. Utility ramps solve the problems and make wheel movement between uneven levels very easy. Lift is available in block no 5. Information regarding the university can be obtained from reception.

### 3.2 Tactile path, Guiding blocks and Warning blocks

University have developed the tactile path embedded in the pedestrian path built parallel to metaled road so that person with disability can walk conveniently. Guiding and warning blocks are embedded in the tactile path where there is a diversion or crossroads for the safety of visual impaired person. In every 20 - 30 meters metal benches were installed so that person with disabilities can rest while walking. E-Rikshaw is diploid to transport persons with blocks. Vehicle is provided to the person with disability and old people from gate to hostel and different blocks.
