- II. The viva-voce of the Ph.D. scholar to defend the thesis shall be conducted if all three external examiners recommend acceptance of the thesis after incorporating any corrections suggested by them. If one of the

external examiners recommends rejection, the Higher Educational Institution concerned shall send the thesis to an alternate external examiner from the approved panel of examiners, and the viva-voce examination shall be held only if the alternate examiner recommends acceptance of the thesis. If the alternate examiner does not recommend acceptance of the thesis, the thesis shall be rejected, and the Ph.D. scholar shall be declared ineligible for the award of a Ph.D.

- III. The University shall ensure the completion of entire process of evaluation of Ph.D. thesis including the declaration of viva-voce result within period of six months.
- IV. The examiner will be free to seek clarifications on any matter from candidate's supervisor or the co-supervisor through Director Research. The Director Research will ensure the secrecy of examiner's identity and the reports submitted by the examiners.

The examiner will state in his/her report:

- ✓ Whether he/she recommends the award of the degree to the candidate without any changes.
- ✓ Whether thesis is acceptable, subject to the satisfactory answer to the queries raised by the examiner during the final viva-voce examination.
- ✓ Whether he/she recommends re-submission of the thesis after revision. In case an examiner recommends revision of the thesis, he/she will also indicate the nature of changes.
- ✓ Whether he/she recommends rejection of the thesis.
- V. In the event of an examiner making recommendations for revision/modification of the thesis, the candidate shall be free to defend his/her point of view through the Director Research. However, if the examiner is not satisfied with the candidate's defense, the candidate shall be required to carry out necessary revision/modification as finally suggested by the examiner, before his/her case is processed further. It may be added that one examiner can recommend revision of thesis only once. If a second revision is recommended by the same external examiner, it will be treated as rejection of thesis.
- VI. The candidate, who is required to resubmit the thesis, must do so within one year from the date of receipt of comments of the examiner to him/her by the University, irrespective of his/her submission of defense, unless extension is specially given by the Vice-Chancellor. A resubmitted thesis will be examined by the examiner, who has recommended re-submission unless he/she himself fails to do so or declines to do so.
- VII. Each examiner shall be given three months' time for evaluation of the thesis. In case report from him/her is not received, he/she may be reminded through e-mail. After the period of three months, if no report is received, the next examiner may be appointed. The first examiner will be requested to send the thesis back to the University. If in due course, the report is received from the first examiner, the report will not be considered.
